

EASEL HINGE MACHINE

Assembling backs in your own facility has never been this easy...or safe! Craft's Model EHM-00 Easel Hinge Machine is safe, reliable and easy to operate. Once in place on a bench top with an air supply of 70 - 90 p.s.i. (5-6.5 kg/cm²), the adjustable "L" bar and exclusive hinge guide system orients the easel hinge and back into perfect, and quick, alignment every time.

The EHM can be used to assemble Craft's patented Easel Hinges onto a wide assortment of frame backs. The press can accommodate back sizes from 3" x 4" (7.6 cm x 10.1 cm) to 11" x 14" (27.9 cm x 35.5 cm) in a variety of materials including chipboard, fiberboard, hardboard, M.D.F., and a wide variety of woods and plastics. In addition to Craft's wide range of patented Easel Hinges, the EHM can also attach three popular self-fastening hangers with ease.

Craft's Easel Hinge Machine is a proven performer in our ever-growing extensive line of equipment designed to efficiently assist every frame manufacturer in all levels of hardware application. Please call us for more information.
